Not guilty!
We demand Freedom for Ahmed H.!
Next trial 15th of June

The trail against Ahmed H. continues before the court of second instance on Thursday, 15th of June. In November 2016 Ahmed H. was sentenced to 10 years in prison for “terrorism” and “illegal border crossing” in the court of Szeged after a series of extremely biased court hearings.

Ahmed’s trial as well as the show-trials against the other ten of the Röszke 11, are supposed to state an example and create an atmosphere of fear, where anyone could be framed as a terrorist. This goes along with border violence and harsh policy changes against migrants as well as increased repression against support structures - through to liberal NGOs.These measures are part of the Hungarian state’s racist propaganda against migrants which form part of the repressive migration policies of the EU.

But freedom of movement is not a crime!
We demand Freedom for Ahmed!

Show your solidarity by supporting Ahmed on his court hearing in June.
The address is: Szegedi Ítélőtábla (Court of Appeal), Szeged, Sóhordó utca 5., 6721
... Or organise a demo in front of the Hungarian consulate in your city on that date.

For the legal costs and to support Ahmed in prison we still need support!
